

**Auto Generated PDF**

**Integrated USB**

**Replaceable Battery**

**User Programmable**

**Validation Certificate Included**

## Ultima IT-02

Multiuse Temperature Data Logger

### Economical Reusable Temperature Data Logger for Cold Chain Monitoring

**Ultima IT-02** data loggers are extremely engineered for cold chain monitoring during storage or transit. **Ultima IT-02** is integrated with USB & Plug-N-Play features for auto-generating secured PDF report without requiring additional Hardware (cable/interface) or software. **Ultima IT-02** data loggers are equipped with highly precise sensor with accuracy of  $\pm 0.5^{\circ}\text{C}$  for entire range of  $-25^{\circ}\text{C}$  to  $+60^{\circ}\text{C}$ . Manufacturer's NIST traceable Certificate of Validation is included to comply with Quality Assurance needs.

#### PDF REPORT

Automatically generated encrypted PDF format report, no software required to access data file.

#### VALIDATION CERTIFICATE

Manufacturer's Validation Certificate included for proven accuracy and to comply with regulations

#### EN 12830 COMPLIANT

Compliant with European standards to meet the demands of the transportation industries

#### INTUITIVE LCD INDICATION

LCD shows vital information including statistics, alarm and running status, remaining battery

#### USB CONNECTION

Integrated USB for most conveniently download data report without additional interface or cable.

#### IP65 RATING

Highest Protective design ensures continuous data logging even in complex environmental conditions.
